AARAV MEHTA

JUNIOR PYTHON DEVELOPER | AI / ML INTERN CANDIDATE

Surat, Gujarat, India • +91 90000 12345 • aarav.mehta.demo@example.com
GitHub: github.com/aarav-mehta-demo • Portfolio: aaravmehta-demo.example.com

PROFESSIONAL SUMMARY

Diploma-level Information Technology student focused on Python development, data processing, and practical AI applications. Built academic projects using Python, Flask, SQLite, REST APIs, and basic machine-learning workflows. Seeking a 6-month AI / Python internship to contribute to real product features while improving software engineering skills.

TECHNICAL SKILLS

Languages	Python, Java, SQL, JavaScript, HTML, CSS
AI / Data	Pandas, NumPy, scikit-learn basics, prompt engineering, LLM API integration, text preprocessing
Backend	Flask, REST APIs, SQLite, JSON, authentication fundamentals
Tools	Git, GitHub, VS Code, Postman, Streamlit, Linux basics

PROJECTS

1. Resume & Internship Matching Assistant

Python, Streamlit, Groq API, PyMuPDF, SQLite

- Extracts skills and education from a resume and converts the profile into structured JSON.
- Compares a candidate profile with internship requirements and calculates an explainable match score.
- Saves shortlisted roles and application status in a local SQLite database.

2. Student Result Insights Dashboard

Python, Pandas, Streamlit, SQLite

- Imports sample student marks from CSV and displays subject-wise performance summaries.
- Flags low-scoring subjects using configurable rules and generates a downloadable report.

3. Campus Helpdesk API

Flask, REST API, SQLite, JSON

- Created API endpoints for FAQs, issue categories, and ticket status updates.
- Added input validation and tested endpoints using Postman.

EDUCATION

Diploma in Information Technology — **Expected: 2027**
Demo Polytechnic Institute, Gujarat — CGPA: 8.4 / 10
Class 10 – Gujarat Secondary Education Board — Percentage: 88%

EXPERIENCE & LEARNING

Python Development Trainee — Academic Practice Projects | Jan 2026 – Present

- Practised writing reusable Python modules, working with files, handling exceptions, and using virtual environments.
- Integrated third-party APIs in small experiments and documented setup steps for reproducibility.

ADDITIONAL DETAILS

Internship preference: AI Developer Intern / Python Developer Intern
Preferred duration: 6 months • Work mode: On-site or hybrid • Preferred location: Surat / Ahmedabad
